BookList (koha.ista.ac.at) is the library catalog containing an increasing number of books and eBooks available at ISTA. You will find all book items offered by the library for general use, but it also includes numerous books held by the research groups of ISTA.

At the moment the library offers around 2.600 books to lend in the fields of biology, mathematics, physics, computer science etc. Library books are freely accessible 24/7 at our physical library located on the ground floor of Sunstone Building. Apart from reference books you can borrow these books by using our [Self Checkout System](#). BookList also lets you administer your library account. It shows you the books you have recently borrowed, allows you to renew your borrowed items and to put books on hold. 

Besides the physical books you can also search the catalog for more than hundred thousand of eBooks licensed for ISTA employees. The catalog leads you directly to the publisher where you can read or download the items.

The following user guide gives you an overview how to use BookList.

Starting with BookList

You reach the library catalog at koha.ista.ac.at/.

After logging in with your ISTA credentials (and token), you can, for example, start a simple search or check out books to your personal account at BookList. A list of links refers to other library services.

The screenshot shows the ISTA BookList library catalog homepage. At the top, there is a dark green header with the ISTA logo (Institute of Science and Technology Austria) and a 'Lists' menu. A user is logged in as 'Welcome, Karin Schuh'. Below the header is a search bar with a dropdown menu set to 'Library catalog' and a 'Go' button. Underneath the search bar are navigation links: 'Advanced search | Course reserves | Purchase Suggestions | Tag cloud | Libraries'. The main content area has a 'Home' breadcrumb. On the left, there is a sidebar with links: 'Self Checkout/Checkin', 'ISTA Library', 'ISTA Research Explorer', 'Document Delivery', 'Austrian Library Catalog', and 'Links to Library services'. The main content area features a green icon of a stack of books. The text below the icon reads: 'The catalog **BookList** allows you to search the book holdings of our library at ISTA. Here you will find the items of our library - located on the ground floor of Sunstone Building - as well as the books of each research group. You can also look up several collections of e-books that you can easily download on campus. If you want to suggest a book for the library, don't hesitate to use the **Purchase suggestion** tool. Your Library team will try to purchase the book for your use as soon as possible. If you have any questions do not hesitate to contact the **ISTA Library team**.'

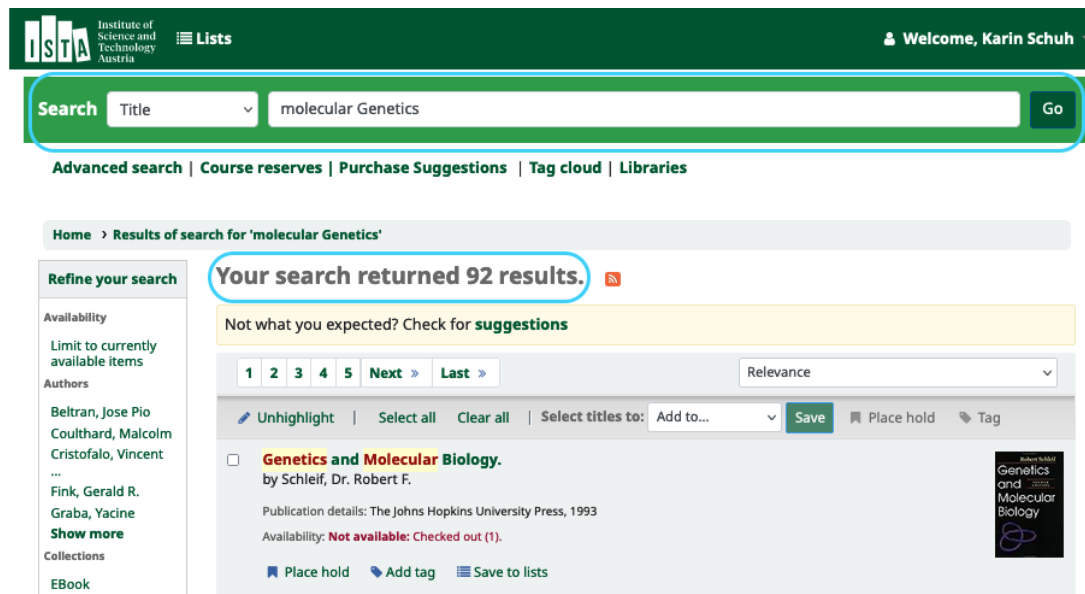

Search & Find

Simple Search

For searching items in the catalog just visit koha.ista.ac.at/. On the home page, you will find a search bar that allows you to either search the entire library catalog or use the drop-down menu with some specific fields such as title, author, etc.

The search will result in a list of books and eBooks available at ISTA.

Advanced Search

If you'd like to make a more precise search you can use the “Advanced search”. A link at the homepage leads you there.

The screenshot shows the top navigation bar of the ISTA website. On the left is the ISTA logo (Institute of Science and Technology Austria) and a 'Lists' menu icon. On the right, it says 'Welcome, Karin Schuh'. Below the navigation bar is a search bar with a dropdown menu set to 'Library catalog' and a 'Go' button. Underneath the search bar is a horizontal menu with links: 'Advanced search' (highlighted with a blue circle), 'Course reserves', 'Purchase Suggestions', 'Tag cloud', and 'Libraries'. Below this is a 'Home' breadcrumb. A vertical sidebar on the left contains links: 'Self Checkout/Checkin', 'ISTA Library', 'ISTA Research Explorer', and 'Document Delivery'. To the right of these links is a green icon of a stack of books.

Choose a category you'd like to search for (e.g. title) and combine it with an additional category (e.g. author).

The screenshot shows the 'Advanced search' page. At the top is the ISTA logo and 'Lists' menu. Below it is a horizontal menu with links: 'Advanced search' (highlighted), 'Course reserves', 'Purchase Suggestions', 'Tag cloud', and 'Libraries'. Below this is a breadcrumb: 'Home > Advanced search'. The main content area is titled 'Advanced search' and contains a 'Search for:' section. This section has three rows of search criteria:

- Row 1: A dropdown menu set to 'Title phrase', a text input field containing 'molecular genetics', and a '+ -' toggle button.
- Row 2: A dropdown menu set to 'and', a dropdown menu set to 'Author', a text input field containing 'Schleif', and a '+ -' toggle button.
- Row 3: A dropdown menu set to 'and', a dropdown menu set to 'Keyword', an empty text input field, and a '+ -' toggle button.

 At the bottom of the search area are three buttons: 'Search' (highlighted in green), 'Fewer options', and 'New search'.

You can also reduce the hit list by item type (eg. Book, eBook, etc.)

Limit to

You can refine your search results after receiving a hit list. Different categories for limiting the number of results are listed in the left column:

The screenshot shows the ISTA library search interface. At the top, there is a search bar with the text 'molecular genetics' and a 'Go' button. Below the search bar, there are navigation links: 'Advanced search', 'Course reserves', 'Purchase Suggestions', 'Tag cloud', and 'Libraries'. The main content area shows 'Results of search for 'molecular genetics'' with 'Your search returned 92 results.' On the left side, there is a 'Refine your search' section with several categories: 'Availability' (Limit to currently available items), 'Authors' (listing names like Beltran, Jose Pio, Coulthard, Malcolm, etc.), 'Collections' (listing 'EBook', 'Ebook Elsevier', 'Ebook Protocols', 'Hof Group', 'Vicoso Group'), and 'Home libraries' (listing 'Books at groups', 'e-Library', 'Library'). The main search results list two books: 'Genetics and Molecular Biology' by Schleif, Dr. Robert F. (1993) and 'Molecular Genetics of Bacteria' by Dale, Jeremy W. (2010). Each result includes publication details and availability information, such as 'Not available: Checked out (1)' for the first book and 'Items available for loan: Library (1)' for the second.

Home libraries:

“Books at groups” lists books of different research groups. These items are not intended for public use, but you can always contact the group.

“e-Library” contains our licensed eBooks

“Library” stands for all books of the publicly available library, you can check out these items

Item types:

“Book” includes all physical items

“eBook” contains licensed electronic books

Several different limitations like “currently available items”, “Authors”, Series etc. are possible as well.

Location & Access

Books in the Library

How to Find

To locate a book on the library shelves, please refer to the classification system, which consists of three-digit numbers (e.g., 572) and the copyright year tagged on the spine of the book. The number and the year are also shown in the catalog entry of each book at the field "Call number". Each number stands for a special field like "00x" for Computer Science, "512" for "Algebra", or "570" for "Life sciences". To make the search easier for you, the main fields (categories) are marked with different colors in the library so the searching is as quick as possible.

Library Location Labels

0XX	Generalities	5XX	Natural Sciences & Mathematics
1XX	Philosophy, Psychology	6XX	Technology
3XX	Social Sciences	7XX	Arts
4XX	Language	8XX	Literature

Books at the Research Groups

Books held by research groups are listed in the catalog as well. Not all of the books of a research group are necessarily registered.

Books of research groups are listed as “Books at groups” in the field “Current library”. The “Collection” field refers to the group. These books cannot be borrowed from the library, but you can contact the Research Group.

eBook Collections

ISTA is licensing more than hundred thousand of eBooks. To reduce your hit list to eBooks please follow the instructions at the chapters [Advanced Search](#) and [Limit to](#). If you'd like to access an eBook please follow the link at the field "Online Access". You can find this link both in the hit list display or the single item display.

You can find a list of all accessible collections here

<https://ista.ac.at/en/research/library/find-read/ebooks/>

Hit list display:

The screenshot shows the ISTA search interface. At the top, the ISTA logo and 'Institute of Science and Technology Austria' are visible, along with a 'Lists' menu and a user greeting 'Welcome, Karin Schuh'. A search bar contains the text 'electron paramagnetic Resonance' and a 'Go' button. Below the search bar, navigation links include 'Advanced search', 'Course reserves', 'Purchase Suggestions', 'Tag cloud', and 'Libraries'. The main content area shows 'Results of search for 'electron paramagnetic Resonance'' with 19 results. A sidebar on the left allows refining the search by availability, authors, and collections. The search results list two items, both from the 'Methods in enzymology' series, edited by Peter Z. Qin and Kurt Warncke. Each result includes details on material type, publisher, and online access, with a 'Click here to access online' link circled in blue. A 'Popularity (most to least)' dropdown menu is visible above the results, and various action buttons like 'Unhighlight', 'Select all', and 'Add tag' are present.

Personal Account

Everybody at ISTA has an own account for BookList. It is activated with your first login with your ISTA credentials (username, ISTA password, Token).

To access your account, click on one of the highlighted links.

The screenshot shows the ISTA BookList user account home page. The header includes the ISTA logo and 'Institute of Science and Technology Austria'. A search bar is present with a 'Go' button. Below the search bar are links for 'Advanced search', 'Course reserves', 'Purchase Suggestions', 'Tag cloud', and 'Libraries'. The main content area has a 'Home' breadcrumb and a 'User summary' box on the right that says 'Welcome, Karin Schuh' and '2 checkouts'. On the left, there are links for 'Self Checkout/Checkin', 'ISTA Library', 'ISTA Research Explorer', and 'Document Delivery'.

Within your account you can check the status of books you have on loan and renew books before the due day if nobody is waiting for it. All books are automatically checked out for 2 months.

The screenshot shows the 'Your summary' page for Karin Schuh. It displays a table of checked-out items. The table has columns for Title, Author, Due, Call number, and Renew. Two items are listed:

Title	Author	Due	Call number	Renew
 Molecular Genetics of Bacteria.	Dale, Jeremy W.	25/01/2024	572-2010	<input type="checkbox"/> Renew (999 of 999 renewals remaining)
 Molecular population genetics /	Hahn, Matthew William.	25/01/2024	577-2019	<input type="checkbox"/> Renew (999 of 999 renewals remaining)

Below the table are buttons for 'Renew selected' and 'Renew all'. The 'Due' column in the table is highlighted with a blue box.

Here you can also create a private list or view public lists.

Self Checkout (HowTo borrow books)

If you are an employee at ISTA and would like to check out a book from the library, please use the self-checkout tool on the computer in the library or on your personal computer. Please note that the tool is not available for external users.

Austrian Library Catalog

The catalog **BookList** allows you to search the book holdings of our library at ISTA. Here you will find the items of our library - located on the ground floor of Sunstone Building - as well as the books of each research group.

You can also look up several collections of e-books that you can easily download on campus.

If you want to suggest a book for the library, don't hesitate to use the [Purchase suggestion](#) tool. Your Library team will try to purchase the book for your use as soon as possible.

If you have any questions do not hesitate to contact the [ISTA Library team](#).

You are allowed to keep a book for 2 months, if you still need it you can prolong this period.

To check out a book enter or scan the barcode and click on "submit":

ISTA Institute of Science and Technology Austria

ISTA Library Self checkout system

You are logged in as Karin Schuh.

1. Check out, return, or renew an item: Scan a new item or enter its barcode:

2. AT-ISTA#001542

3. Submit Finish

Checkouts (1) Holds (0) Charges (0.00)

Checkouts for Karin Schuh (1 total)

Title	Call number	Due	Renew
Molecular Genetics of Bacteria. Dale, Jeremy W. (AT-ISTA#000495)	572-2010	25/01/2024	Renew item

Please note: The "Finish" button is currently not working :(

To return a book, enter or scan the barcode and click on "submit" again. The following page appears:

Click on "Return this item" to return the book.

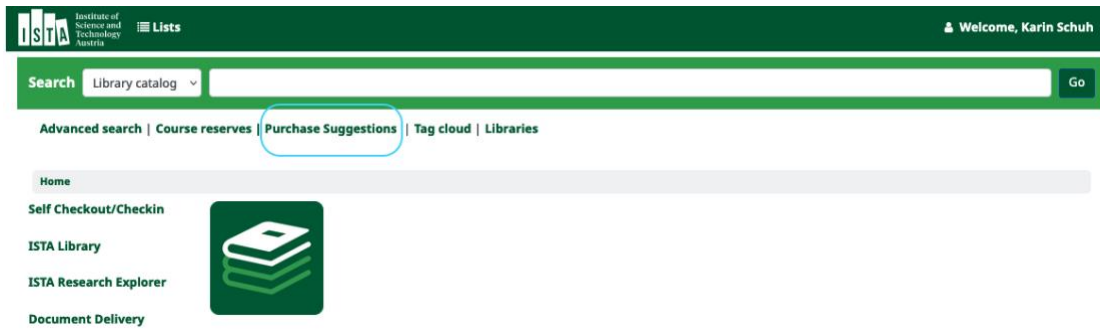

You can renew books either in the self-checkout module or in your account under "your summary".

Purchase Suggestion

If you want to suggest a new book for the library, please use the “Purchase Suggestions” tool.

Follow the link “Purchase suggestions” on the home BookList page.

Please click on the link “New purchase suggestion.” Just enter the title and some additional information or notes and click on “Submit your suggestion”. The library will let you know whether the book will be purchased. You will also receive a message when the book has arrived. Additionally, you can follow the status of your suggestion at “your purchase suggestion”.

Enter a new purchase suggestion

Please fill out this form to make a purchase suggestion for the Library collection.

Provide at least the title of the book. The more information you enter the easier it will be for the librarians to find the title you're requesting.

As soon as the book arrives at the Library you will be informed via email. The book will be reserved for you as first reader.

If you would like to order a book for your research group please write an email to library@ist.ac.at instead of using this form.
